

# Best Care EAP Remains Committed To the Well-Being of Your Workforce

Dear Valued Best Care EAP Partner:

Best Care EAP hopes that you and your workforce are staying safe and healthy as we make our way in to our new “normal”! We wanted to take a moment and reach out regarding Best Care’s commitment to moving forward with training opportunities but also understand your desire to keep your employees safe at the same time.

Now, more than ever, employees are asking for relevant information to help them perform better, whether this is taking care of their emotional health or learning how to better manage a virtual workforce. All Best Care partner organizations have access to Best Care trainings, whether you have hours wrapped in to your contract, or you have opted to pay for onsite hours as you use them.

In addition to our in-person training option, Best Care also offers virtual training for convenience and safety. A couple of options include:

- **LIVE WEBINARS:** We can offer most programs as a live virtual webinar, hosted either by you or by Best Care. We have found it to work well when you “host” the webinar to allow you control of the invitations and registrations. If that does not work for you or you do not have a training/meeting platform to use, Best Care will host and facilitate the session(s) for you. Any live webinar can also be recorded and later shared with anyone that missed the live event.
- **RECORDED WEBINARS:** We also have the ability to customize and record webinars that you and your employees can access whenever convenient

Please note that, as always, we are happy to provide trainings at the worksite if feel your space allows for safe social distancing.

*During this unique time in history, Best Care EAP remains committed to the well-being and development of your workforce. Call 402-354-8000 or email [eap@bestcareeap.org](mailto:eap@bestcareeap.org) to schedule your training or webinar! Many thanks!*
